“An effective language development program must include language-rich, content-rich, highly engaging lessons. *Language Power* exceeds this goal. Students will enjoy the variety of texts and the opportunities to engage in learning with their peers, teacher, and families. As a former teacher and English learner, I personally believe that *Language Power* can successfully serve English language learners across the country.”

Proven Results!

In a recent study, *Language Power* was implemented during designated English language development (ELD) time across five schools in a large school district in California. Students showed significant gains, up to 14%, in language proficiency levels.

After implementation, more students moved into the advanced levels and fewer students remained in beginner and early intermediate levels. For the full research study, visit us online at www.tcmpub.com/research.
